

MUTHAMIL EDUCATION and RURAL DEVELOPMENT SOCIETY

Annual Report – BENG PROJECTS - 2020 April to March 2021

Chapter - 1: MICRO CREDITS

The CFK PROJECT:

The CFK beneficiaries are very busy now on keeping their animals good and making reasonable milk selling with the marketer. The CFK women were suffering a lot for the survival as well as the maintaining business due to the corona attack last year. The CFK women didn't make any profit neither maintaining their family livelihood was very difficult in the last year. The corona situation makes it difficult for them to market their milk. The milk vendors do not visit their villages to market their milk. There were no alternative works for the women to get employment for their survival. On such scenario BENG came forward to help our beneficiaries to get food packages with rice, vegetables, oil, groceries etc. The help was extended to 90 days to such communities. However, after December 2020 there was little relaxation and almost the corona attack became less. Almost all the people were happy and started their routine works from January 2021. The small business of our people began fast and the marketing facilities were increased. The transportation and traveling were enabled highly on January 2021. Hence, the milch animal kept by our beneficiaries are being maintained well and begin to yield regular milk. The women are happy to earn reasonable money from their milk selling and repaid properly as per norms. We hope that very soon within 6 months they will repay their CFK loan. We got reasonable seasonal rainfall in the last year and hence we hope there won't be any water crises in the current year. However, we find again the corona attack for the past one month and now it is peak in Tamilnadu. Every day the corona case registered is nearing 10000. Hence there is again lot of restrictions are going to be implemented in our Tamilnadu state and all over the country. People are sad on hearing such news and we are encouraging them not to fear on this but asking them to follow the rules of wearing masks and distance keeping etc.

The Palm Leaves knitting:

The micro credit loan Rs 5000 to 16 women in Satram village, Natham area were given in October 2019. They have been performing well on production and marketing their Palm leaves. They have repaid their loan installments for 7 months. The women beneficiaries were also the victims of corona and couldn't manage the business due to corona problems in the last year. Now there is complete relaxation and the marketing viabilities are good and hence the people are happily engaging on their daily routine. They begin to earn reasonable money so that they can take care on their families and make their children to study in schools. We have provided them the health care awareness education to all such families in our target area. They are fully engaged on their business and hope to repay the money soon within three months. Every one is fearing that if the corona situation continues then there may be lock down and they can't succeed. We hope that even if corona exist we will help them to continue their livelihood works without any difficulty.

Likewise, another batch of 12 women beneficiaries who are engaging in palm leaf production were given Rs 5000 each for a period of 12 months. December 2020-September 2021. They are also doing well and happily undertaking the works as well. They have repaid 3 months from January 2021 and hope to complete the repayment as per schedule.

CHAPTER- 2: DROP OUT CENTRE

Our DOC center is the key factor to provide the real educational support to the children last year 2020 who are unable to attend the schools regularly due to corona attack. Also, they are unaware of digitalized education. However, our teachers were able to teach the actual lessons on their curriculum and made them fit for the next class. Even the government schools were unable to do this for their children. We not only provide the school education but also the food regularly. Almost we completed the last year syllabus to our children and performed like a regular school. The parents are very happy on knowing their children have passed their class but with true knowledge on their subjects. Even during Corona period our teachers were sitting among them and continued their teaching. Our cook cooked food without any hesitation and supplied on time. Our volunteers get involved in all our village ventures with out any hesitation. We have visited all our DOC children's home and encouraged the parents on safe living and securing livelihood opportunities. BENG is the sole factor who provided the food packages during the opt time to the beneficiaries. We find GOD through BENG. The timely help saved 200 families with suitable food materials for a period of 3 months during corona attack. All our DOC children and families were saved highly due this timely help by BENG.

However, our DOC students are happy and conveying their hearty gratitude to BENG for the noble help they have provided. The DOC students are happily continuing their study again and they hope to continue their study till the schools are reopen. We don't know about the future plan of the government on reopening the schools again. We hope to continue the effort for the welfare of the children as much as we can.

Thank you BENG.

Total number of students at DOC 2020-21 March

6 th standard	Male-3	Female - 5	8		
7 th Standard	Male -3	Female - 5	8		
8 th Standard	Male -3	Female - 6	9		
9 th Standard	Male - 3	Female -6	9		
10 th standard	Male - 2	Female- 7	9		
11 th standard	Male-3	Female -3	6		
12 th standard	Male-1	Female-	1		
Hence the total	Male = 18	Female =32	50		

CHAPTER-3: BURSARY PROJECT:

For the year 2020-2021, we have provided scholarships to 11 students. There are 10 regular college students and one young schoolgirl Pachaiyammal. The list is as below:

1. Pachaiyammal R2016-49 High School Natham 9th standard (school student)
2. S.Banupriya R2017-50 NPR College Natham B.COM.CA
3. S.Anucia R2017 -56 Thiruchy colleges B.SC Computer
4. Nandhini R2017-57 M.K.University Madurai B.COM, CA
5. Shobanadevei R2017-58 Higher secondary School Natham
6. N.Yuvakarhika R2017-59 Meenakshi College Madurai B.A History
7. K.Mani R2018- 62 SBM College of Engineering B.E. Dindigul
- 8 Gayatri 8R201964 CMA Nat.Management college, Erode
- 9 Nagalaksmi 9R2019-69 Sacred Heart College Rediapatty B.COM
- 10 Sangavi 11R2019-66 NPR College Natham B.SC PHYSICS
11. kavitha R2020-67 V.Kavitha (ex student R2017-54) new in 2020/2021) coaching institution Government Job exams at Madurai .

The bursary students were given opportunity to use our DOC TO continue their daily class through online. The wifi along with laptop arrangements were also made for them. Thanks to Mrs.Ariyane who helped us to buy a new laptop for the purpose. We facilitated our bursary students to study their daily lessons through online and it helped them to get pass on all their on line examinations too. If the corona problem exists then there again the bursary students will come to attend their daily classes to MERDS. The bursary students and the parents are thanking a lot to BENG and convey their gratitude for the timely help rendered to the children.

very thankful to BENG for supporting them to continue their studies in the colleges. They hope that as soon as they complete their course period they will attain good job in future.

Chapter: 4 MGC- MERDS GARMENT CENTRE.

We are again in the battle of getting opportunity to our MGC women and give life to the center. But the corona wave made it failure. Even the big companies in Natham town are unable to start their unit again due to poor labor attendance and government strict rules. How ever we tried again in another way as we have told earlier that to start a skill training unit along with the government permission. Hence, we approached FORD INTERNATIONAL company to provide us the CSR project. We have applied for the training and got through the screening. Yesterday there was direct online interview with me for the said project training. They asked me to wait for a week and the results will be declared soon. Iam having good hope on this venture. If we get that training project, we will be able to train the girls on sewing and garment making for a period of 2 years. Batchwise trainings will be provided and we will be paid for the training and implementation. Through this income we can repay the loan also.
